ITINERARY

B = Breakfast **L** = Lunch **D** = Dinner

DAY 1: ANTANANARIVO, MADAGASCAR

On arrival in Antananarivo, the capital of Madagascar, you will be welcomed and provided with assistance by one of our friendly staff before transferring to your hotel in the city. Spend the rest of the day at your own leisure.

Accommodation: Raddison Blu Water Front Hotel, Palissandre Hotel & Spa or similar (rooms with en-suite bathrooms)

DAY 2: ANTANANARIVO TO ANDASIBE, MADAGASCAR

B

In the morning we will start our journey with a drive to Andasibe through the green and luxuriant vegetation of eastern Madagascar. This brings us to a very humid part of the country with many primary forests and lakes. Along the way we will see villages of the Merina people scattered throughout the rocky mountainside. We arrive at Andasibe in the afternoon and check-in to the hotel. In the evening we will set off from the hotel at approximately 18h00 (depending on the season) on a night walk to observe night active lemurs and other nocturnal animals. We return to the hotel where we overnight.

Distance: 150 km

Accommodation: Mantadia Lodge, Vakona Forest Lodge, Mantadia Lodge or similar (rooms with en-suite bathrooms & veranda)

DAY 3: NATURAL RESERVE OF ANDASIBE

B

We start our morning with a visit to the Special Reserve of Andasibe to see the Indri, the largest lemurs on the island. This 810 ha reserve is unique with its endemic fauna and flora and contains a wide variety of orchids, canopy, and endemic animals like chameleons, tenrecs, and many birds. In the afternoon, we visit the V.O.I.I.M.A community reserve. In this reserve, you will see brown lemurs, indri, chameleons, geckos and birds. The reserve provides a sustainable way of saving the remaining rainforests in the area by creating a livelihood for the local communities through reforestation projects. We overnight at the same hotel.

Accommodation: Vakona Forest Lodge, Mantadia Lodge or similar (rooms with en-suite bathrooms & veranda)

DAY 4: ANDASIBE TO ANT SIRABE	B
--------------------------------------	----------

We drive back to Tana, and head south to Antsirabe, across the highland landscape with its beautiful rice fields on display. The spectacular eroded hills called 'lavaka' remind us of the Far East with its rice fields and green landscape with vegetables and fruit trees. We stop in Ambatolampy for a quick visit to this huge agricultural city, also recognised as the capital of aluminium recycling. Arrival in Antsirabe is around 18h00. 'The place of salt' is an elegant city and known as the centre of the beer industry - we can smell the Star Brewery as we enter the town! Founded by Norwegians in 1856, it is the only place that feels and looks like a European city. It has a temperate climate and therefore fruit and vegetables which grow in colder climates, are found in Antsirabe.

Distance: 309 km

Accommodation: Arotel, Plumeria Hotel or similar (rooms with en-suite bathrooms)

DAY 5: AMBOSITRA TO RANOMAFANA NATIONAL PARK	B
---	----------

After breakfast, we drive to Ambositra, the centre of Madagascar's wood carving industry. The highlands are characterized by their architecture: The houses are made with ornately carved wooden balconies and shutters with bright colours. Further on we pass the 'le col de tapia', a type of tree resistant to bush fires. The landscape is still dominated by rice fields, pine forests, eucalyptus trees and rocky mountains. We turn off from the main road to reach our destination for the day: Ranomafana National Park.

Distance: 250 km

Accommodation: Setam Lodge, Hotel Thermal or similar (rooms with en-suite bathrooms)

DAY 6: RANOMAFANA NATIONAL PARK	B
--	----------

The approximately 40,000 ha of Parc National de Ranomafana with its rainforest-covered hills and abundant wildlife, has long been considered one of Madagascar's highlights and is one of the country's national parks most heavily visited. Its entrance lies about 7 km from Ranomafana village and altitudes in the park range from 800 m to 1200 m. In addition to its densely forested hills, Ranomafana's terrain is characterised by numerous small streams which plummet down to the beautiful Namorona River. Although much of the region has been logged, the easternmost part of the park retains relatively large areas of primary forest. You will go for long walks in the National Park, spotting some lemurs, chameleons and other animals.

Accommodation: Setam Lodge, Hotel Thermal or similar (rooms with en-suite bathrooms)

DAY 7: RANOMAFANA - FIANARANTSOA – ISALO	B
---	----------

Returning on the road we came on, we leave Ranomafana and make our way to Fianarantsoa the city is the gate to the South, the capital of the Betsileo tribes and the centre of the catholic religion. Most of the best schools in the country are also found here.

We then head southwards to Ambalavao and visit the 'Anteimoro Paper Factory' which is a vestige of the Arabian civilisation on the island. Afterwards, we partake in a community-based silk weaving project run by the women's association "Soalandy".

We pass through the mountain chain of Andringitra, which serves as a transition between the dry south and green highlands with its famous '3 hillocks' and its huge 'archbishop cape'. Along the way we will see from after a spectacular huge granite dome with twin rock towers called 'the gate of the south' which in fact marks the end of the highland and the beginning of the south. The 'Bishop's Hat' is

another noticeable, imposing formation and a sacred location for the local people - a place where their ancestors chose a collective suicide rather than to give in to the Merina tribes. We then continue to Ihosy, the capital of the Bara tribes, who are shepherds of Zebu, and further on through the huge 'Plateaux de Horambe' with its very deep red soil, which reminds us of 'the no man's land' and we arrive in Isalo.

Distance: 355 km

Accommodation: Isalo Rock Lodge, Jardin du Roy or similar (room with en-suite bathroom & air-conditioning)

DAY 8: ISALO NATIONAL PARK	B
-----------------------------------	----------

Today, we will visit and hike in the Isalo National Park. The park covers an area of 81,540 ha, comprising of the entire stretch of the Isalo massif. This huge mountain is very spectacular with its eroded sandstone elevations. After a 10 minute drive from Ranohira village, we park our car and walk about 1½ hour to reach the Natural Swimming Pool.

Along the way we will see vegetation like *Uapaca bojeri*, *Pachypodium rosulatum* or 'elephant's foot' and *Aloe isaloensis*, a native species of aloe endemic to Isalo. The eroded mountains also served as a place where the Bara kept their dead before they could bury them in their actual tombs. We start our climb and reach the massif after walking about 20 minutes, where we will have a spectacular view of the huge sandstone mountains with its beautiful colours and its strange and battered formations creating many different images like 'the tortoise', 'the masks' and 'the crocodiles'.

We see small streams of water, and rivers which are marked by lines of brilliant green generally made up of numerous *Pandanus pulcher* and the delicate, slim-stemmed, feathery leaved palm *Chrysalidocarpus isaloensis*. Along the way, there may be sifakas, brown lemurs and ring-tailed lemurs, as well as fifty-five species of birds, lizards and snakes. We finally reach the swimming pool, with its crystal clear water - a great reward after a long and very hot walk.

Accommodation: Isalo Rock Lodge, Jardin du Roy or similar (room with en-suite bathroom & air-conditioning)

DAY 9: ISALO TO IFATY	B
------------------------------	----------

After breakfast, we continue to Tuléar, the terminal of the National Road N° 7. This part of our journey brings us to new scenery among the dry forests of the west and the spiny desert of the south. On the way, we admire the different 'Mahafaly tombs' and the 'Antandroy tombs'. After a short visit to Tuléar we drive to Ifaty, which lies about 27 km from Tuléar. Thanks to the newly tarred road, it will take us less than one hour to reach Ifaty, the driest part of the country. Situated in the Deep South, the landscape is dominated by the cactus-like, spiny forest of different *euphorbiaceae* and *didieraceae*. We will cross the dry and sandy soil where the local people battle to find drinking water.

Mangrove trees line the coast alternated by Vezo communities which earn their living from fishing. We will see many small pirogues with men who go out fishing twice a day, while children and women wait on the coast to collect the fish before taking them to Tuléar for sale.

Distance: 265 km

Accommodation: Hotel Vovotelo, Les Dunes D'Ifaty or similar (rooms with en-suite bathrooms)

DAY 10: IFATY, MADAGASCAR	B
----------------------------------	----------

Ifaty lies on the beach. It is therefore an ideal place for diving and snorkelling and a popular place for birdwatchers. Here you can also experience the Vezo fishermen's life. Many excursions are possible on this leisure day. Visit the Reniala Forest where you can see two kinds of baobabs, spiny bush, reptiles like 'boa madagascariensis', geckos and the 'chameleon parsoni', which is one of the largest chameleons in the world. You can also take a boat trip to see whales. From July to mid-September, whales come to the cool seas of Madagascar to give birth to their young. It is a spectacular experience, and it is possible to see the whales very near to the boat. Situated in the largest lagoon of the country, Ifaty is also protected by a large coral reef, which makes it an ideal place for diving and snorkelling. In the afternoon we can walk to the village of Mangily to visit a local school and experience the Vezo fishermen's way of life, especially as they return from fishing.

Accommodation:

Hotel Vovotelo, Les Dunes D'Ifaty or similar (rooms with en-suite bathrooms)

DAY 11: IFATY – TULÉAR – ANTANANARIVO	B
--	----------

Early in the morning at around 6h00 we transfer to the airport for the flight back to Tana. After check-in at the hotel, you have the afternoon free to explore and to do some sightseeing. The capital of Madagascar is also called the 'City of Thousands' and it is where the first King started to unify the different kingdoms of the island. Tana was built in three stages: The high city, the first area occupied during the regal period where the old queen's palace is situated; the mid-city, where all the chic boutiques of the capital are found; and then the low city, which is the commercial area of the town. Walk from the high city to see the Rova, the queen's palace, and the house of the first minister during these days, which is now a museum. All of these were built by Frenchman Jean Laborde during the royal period. The mid-city, or the administration area, ends at the Rainiharo tombs and the lower town is situated in the main avenue called 'L'avenue de l'indépendance' dominated by the railway station.

Distance:

20 km
